# Overview

The Ohio Department of Rehabilitation and Correction (DRC) is committed to providing a comprehensive continuum of alcohol and other drug (AOD) treatment services. The continuum begins at DRC reception centers where inmates receive an AOD screening. For inmates with AOD problems, the next phase of the AOD treatment continuum is provided at parent institutions. A variety of treatment services are offered based on the institutional mission, physical capacity and staffing. Inmate participation in these programs is voluntary

Upon completion of a treatment program, the counselor works with the inmate to develop a continuing care plan. This plan will include participation in institutional AOD aftercare activities while incarcerated and community care when released. Eight Chemical Dependency Specialists (CDS) coordinate AOD services for offenders under DRC supervision in the community. The CDS' are responsible for developing treatment resources, making referrals, providing AOD assessments and interim services.

# Recovery Services Reentry Initiatives

The link between substance abuse and criminal activity has been well documented. Research has shown that the treatment of drug abusing offenders while incarcerated can be effective. Additional research has also shown that treatment gains while incarcerated can be lost unless there are follow-up services in the community.

The following initiatives comprise the Bureau of Recovery Services efforts to provide a seamless system of transition to the community for offenders that have completed AOD treatment while incarcerated:

- Chemical Dependency Specialists (CDS)

The CDS's are charged with ensuring that offenders are appropriately linked with community aftercare services. A total of eight CDS staff are located throughout the state. CDS staff are responsible for the following:

- assessing offender needs
- increasing access to community ADO programs
- conducting some direct treatment
- crisis intervention

- Tapestry Alumni Association

The Tapestry Alumni Association is composed of women who have completed the Therapeutic Community (TC) at ORW and have returned to the community. Their goal is to continue personal growth and remain in recovery. They meet every six-weeks in several Ohio cities to discuss projects and activities in which they can support each other, encourage and be roll models for those women currently in the Tapestry TC, and give back to the community.

- Winners Circles

The purpose of Winners Circle is to create a means for ex-offenders to live safe, sober and crime-free lifestyles. Together, members develop pro-social tools to apply to problems related to addiction and criminal activity. Groups meet on a weekly basis to discuss the challenges and complexities of life that are unique to people that have been incarcerated.

- Lucas County Offender Stabilization Project

Under the auspices of the Lucas County Treatment Alternatives to Street Crime (TASC), this project provides a program and supportive services for offenders under community supervision in Lucas County.

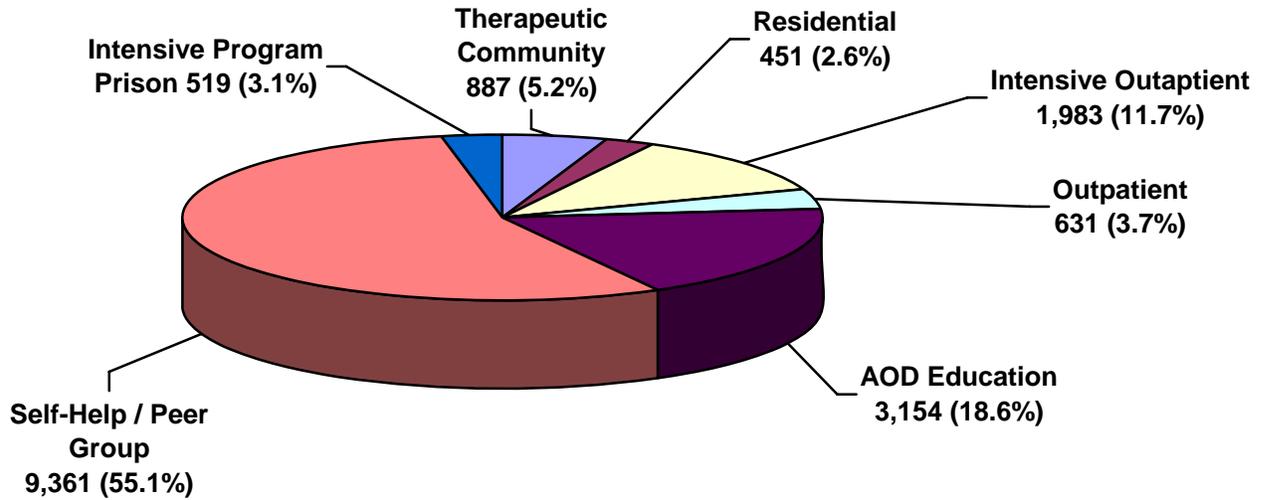

- Circle for Recovery Ohio (CFRO)

CFRO's are under the umbrella of the Urban Minority Alcoholism and Drug Abuse Outreach Programs (UMADAOP). The CFRO's offer a 17-week treatment experience that centers around relapse prevention and the development of pro-social life skills. There are currently 7 programs around the state. Six programs are funded by the Ohio Department of Drug and Alcohol Services and one by DRC.

- Community AOD Treatment Agencies

Over 130 community treatment agencies have been approved to provide AOD treatment services for offenders under community supervisor. All community treatment agencies are certified by the Ohio Department of Alcohol and Drug Addiction Services.
