

Offender Reentry in Ohio

Ted Strickland, Governor

April 2009

Terry J. Collins, Director

8th Congressional District Fact Sheet

Reentry Initiatives within the District:

Family Support and Reentry Resource Meetings (FSRR)

FSRR collaborative meetings demonstrate “Excellence in Action”, utilizing evidence-based practices of frontloading services, engaging family members and/or significant others, and deploying positive incentives. A family support coordinator presents real solutions to address many of the challenges offenders and their families confront. FSRR meetings occur in Darke and Mercer Counties

Reentry Career Alliance (RCA)

RCA offers career/employment-based workshop sessions for offenders in the Dayton and Troy Adult Parole Authority (APA) office locations. The workshops involve the collaborative efforts of the APA Offender Services Network, Parole Officers, Community Service Providers, and potential employers. The RCA program highlights valuable employment and career resource information. Guests presenters other linkage opportunities for participants that assist with career readiness, vocational educational training, and job placement services. The RCA group is coordinated by the APA Regional Reentry Specialist.

Ohio Citizen Circles

Circles create partnerships that promote positive interaction and accountability for offenders upon release. Membership provides an opportunity for citizens to communicate expectations to the offenders for successful reentry. Offenders are able demonstrate their personal strengths, begin the process of rebuilding social capital, be provided with the opportunity to perform community service, and begin repairing the harm their past behavior has caused others. There are twenty-nine (29) active Circles across Ohio which includes Darke, Miami, and Montgomery Counties within the 8th Congressional District.

By the Numbers

	Butler	Darke	Mercer	Miami	Montgomery	Preble
Number of Commitments by County to ODRC Reception Centers Source: FY 2008 Commitment Report						
Male	791	57	45	182	1,323	73
