## **AUDIT FINDINGS**

### **NARRATIVE**

The PREA audit for Pathways for Women Halfway House was conducted on August 30-31, 2017 in Cincinnati, Ohio. As part of the Talbert House residential corrections program, the facility focuses on successful transition from correctional supervision to community. The facility supplied the auditor documentation relevant to showing compliance with each of the standards. This documentation included the pre-audit questionnaire, policy and procedure, facility floor plan with camera coverage marked, MOU's, staffing plan, and other PREA forms. The auditor received this information and additional documentation while conducting the onsite visit.

During the audit, the auditor toured the facility and conducted informal and formal staff and client interviews. It was noted during the tour that multiple PREA audit notices were posted in conspicuous places throughout the facility. The notices included the name and address of the PREA auditor and the date posted was six weeks prior to audit. All client areas including the bathroom has posters which informs clients on the ways in which they can report an allegation; the phone numbers and addresses of agencies they can report including anonymously; and that they can report to any staff member at any time in writing or verbally. Staff post areas have a PREA posters which includes first responder duties and the facility's coordinated response plan.

Five random clients were interviewed, based on the facility's current population level. There were no residents who identified as LGBTI, so a random sample of clients was chosen from the various dorm rooms. Residents were asked about their experience with PREA education, allegation reporting, communication with staff, safety, restrooms, knock and announcements, grievance procedures, pat downs, PREA brochures and postings, and the zero tolerance policy.

Also interviewed were specialized staff. This staff includes the PREA Coordinators (also Investigator), PREA Manager (facility Associate Director), Resident Advisor (RA) Practitioner, Clinical Supervisor, Human Resource Generalist, and Emotional Support Personnel. The local hospitals SANE Coordinator, and Women Helping Women Director were not able to be interviewed. The auditor reviewed both agencies' websites and MOU agreement. The facility does not provide on-site medical or mental health services related to forensic examinations. Random staff were questioned about PREA training, how to report, to whom to report, filing reports, investigations, conducting interviews, follow-up and monitoring retaliation, first responder duties, and the facility's coordinated response plan.

After a brief opening with agency staff, the auditor toured the facility. The tour consisted of examining all dorm areas, group rooms, day rooms, bathrooms, operations post, utility areas, and maintenance areas. A review of employee files, training records, PREA acknowledgments, PREA forms, and data logs were also completed. The auditor gave a closeout and shared some of the immediate findings.

## DESCRIPTION OF FACILITY CHARACTERISTICS

Pathways for Women is a halfway house located in Cincinnati, Ohio that serves adult female felony offenders. The facility is a renovated warehouse with three levels. The facility can house up to 120 offenders; however, it is currently only housing 42. To access the facility, one must be buzzed into a lobby area where they will be sign-in by staff. Clients would access the same entrance and be subject to a pat-down in the duty office which is visible by video surveillance.

The facility is equipped with 28 surveillance cameras which can record and play back anywhere between 14-30 days. The cameras are placed strategically throughout the interior and exterior of the building. There are also multiple security mirrors to enhance security in vulnerable areas. The facility has identified areas of the building that can be considered vulnerabilities and have developed a plan for monitoring these areas until electronic monitoring can be added. The first floor of the facility houses the kitchen/dining room, fitness room, nurses, office, drug screening room, storage areas, and nine offices. The clients are not allowed to work in the kitchen area but have free access to the dining room. The staff offices on this floor do not have windows in the doors. Staff members are required to have the doors propped open whenever they meet with clients. The second floor houses the administrative area, conference room, classroom, two security post, and three dorms. The main entrance is located on this floor entering into the main lobby near the security post. The second entrance is closed off along with the security post due to the low census. The dorms are separated based on commitment type (federal or state). Each dorm is equipped with a laundry facility and bathroom. The bathroom has an entrance door off of the day room that is closed (to see a full description of the bathroom see standard 115.215). The third floor houses the medication room, staff offices, and two more dorm rooms. The dorm rooms can be described as rooms within a room with half wall dividers creating separate areas. Some dorm and day room areas are equipped with cameras. Clients are informed of the policy to dress in the bathroom. The facility requires Resident Advisors to conduct head counts during the day and circulation rounds every 30 minutes, as well as security and perimeter checks throughout the facility. Resident Advisors (RA) are required to conduct more frequent checks in areas that are considered blind spot areas.

The facility has several dorms on the second and third floor of the facility. Some of these dorms are divided by wall barriers and limit the number of beds in each contained area. Clients that have been given a classification of vulnerable would be housed in one of the dorm rooms that offers the most visibility and security. All rooms are designed to minimize blind spot areas. Because each dorm has its own bathroom inside the dorm, separation between clients classified as potentially abusive and potentially vulnerable is easier to maintain and monitor. The bathroom is designed to offer privacy for clients (see standard 115.215 to see full bathroom description). Clients are required to be out their rooms during program hours.

The facility offers several programs designed to successfully reintegrate offenders back into the community. Reentry Services include addiction treatment, medication-assisted treatment, trauma, life skills, vocational services, and criminal thinking. The organization has a culture of innovation that thrives on the creation of services that meet clients' needs. Treatment services are researched based, best practices. The staff provide a secure, supervised, and structured living environment that empower clients to change.

## **SUMMARY OF AUDIT FINDINGS**

Pathways for Women Halfway House has had zero PREA allegations during this audit cycle. Pathways for Women staff interviewed indicated that they received formal PREA training during orientation as well at facility meetings as part of their annual training. Staff on all three shifts including security and program staff were able to discuss their responsibility as a first responder, how to report or respond to an allegation of sexual abuse, sexual harassment, or retaliation.

Staff were sure of their education and training and would be capable to responding to any allegation appropriately. Clients interviews from the facility seemed well versed on their rights under the PREA standards and knew who and how they could report including anonymously. All clients receive information at intake with the phone number and address of inside and outside agencies that could help and knew the location of posters. Services with the Women Helping Women for victim advocacy services and with the University of Cincinnati Hospital for SANE practitioners are in place.

Overall, the auditor was left with the impression that the leadership and staff of Pathways for Women have made implementing the PREA standards a priority and that they have received the necessary training and authority to detect, protect, and respond to any incident of sexual abuse/sexual harassment. Talbert House as an agency has reviewed the corrective action plans from other facility's and have implemented positive changes at all facilities. Opportunities to increase the ability to protect and detect sexual abuse and sexual harassment are proactive in nature. Agency leadership has developed policies and practices that shows a commitment to the safety of residents, and provides the necessary support to implement all aspects of the PREA standards.

This is the facility's second PREA audit and it confirms the agency's progression toward providing maximum safety and an environment where staff can enable positive change

Number of standards exceeded: 0

Number of standards met: 40

Number of standards not met: 0

Number of standards not applicable: 2

**Standard 115.211 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Pathways for Women adheres to the Talbert House agency zero tolerance policy. The policy outlines the facility’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment.

The agency’s Director of Regional Corrections and Compliance Manager serve as the agency wide co-PREA Coordinators and reports to the agency’s Vice President of Court and Corrections. The auditor spoke with both PREA Coordinators concerning their authority to develop, implement, and oversee the agency’s efforts to comply with PREA standards. During the interview, it was clear that both PREA Coordinator has sufficient time and authority to implement the agency’s policies and practices in an effort to obtain and maintain compliance.

At the Pathways for Women facility, the Associate Director serves as the facility PREA manager. The Associate Director would report any PREA related issues to the Coordinators. During the interview, the Associate Director noted that he has sufficient time and authority to implement all policies and practices related to obtain and maintaining compliance with PREA standards.

Interview with PREA Manager/Associate Director

**Standard 115.212 Contracting with other entities for the confinement of residents**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

N/A: The PREA Coordinator reports that the facility is operated by a private agency and does not contract with other agencies for offender placement

**Standard 115.213 Supervision and monitoring**

- Exceeds Standard (substantially exceeds requirement of standard)

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy requiring each facility complete a staffing plan that provides for adequate levels of staffing and where appropriate video monitoring equipment to protect clients against sexual misconduct. The staffing plan reviews the physical elements of the building including the placement of cameras and identified blind spot areas; plans for prevention and detection including coverage of blind spot areas, requiring staff to have blinds or doors open when clients are in the office, and proper training to ensure staff are conducting proper and timely tours throughout the facility; and ensuring proper staff to clients ratios and that staff have been properly trained on the PREA standards. The plan also reviews the number and types of allegations during that year and ensures all recommendations have been implemented.

The facility has a total of 28 cameras (internally and externally) that aid in the supervision of clients. The cameras record to a digital server and are capable of a fourteen-thirty-day play back. The facility is located in a 1927 renovated warehouse that has three levels. Staff, clients, and visitors must be “buzzed in” to the lobby area that is staffed with a Resident Advisor (RA) 24 hours a day. This staff member will monitor cameras, complete pat downs on clients entering the building, and sign clients in and out of the building. Clients have scheduled access to a recreation and smoke break area. RA staff complete a walkthrough every 30 minutes.

The plan is required to be reviewed annually.

There have been no reports of deviations to the staffing plan.

**Standard 115.215 Limits to cross-gender viewing and searches**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Per agency policy, the facility does not cross gender or body cavity searches. The facility houses only female clients and all RA staff are females. The facility conducts strip searches by members of the same sex if there is a reasonable suspicion to do so and only with supervisor approval. All pat downs are completed in camera view. All employees are trained on the proper techniques to a pat down and strip search during orientation and again annually.

The facility allows for clients to shower, perform bodily functions, and dress in areas not viewable to staff. The clients within each dorm share a bathroom. The bathroom is located inside the dorm and is equipped with two toilet stalls with doors and two individual shower stalls

PREA Audit Report

with curtains. The facility has not had an incident of incidental viewing. Males are announced when coming into dorm areas and again when entering the bathroom. There are cameras in the some of the dorm areas, so clients are required to dress in the bathroom. The bathrooms have a closed door entrance.

The facility has not housed a transgender or intersex client. The agency has developed a transgender housing policy that has identified ways to manage, house, and secure a transgender or intersex client safely. The Pathways for Women facility is capable of housing a transgender or intersex client safely. Once identified, the client will be place in a room and bed that offers a more secure environment. The client will be consulted as to their needs for privacy concerning personal hygiene and because Pathways for Women only has female RA staff, females would conduct pat downs. The agency has a policy for professional, respectful transgender/intersex client pat downs. No transgender/intersex client would be searched for the sole purpose of determining genital status.

During interviews with staff, all indicate that they have been trained properly on how to conduct a variety of pat downs. The staff members felt comfortable with their training and no issues have been reported concerning the pat down process.

During interviews with clients, the auditor noted that all clients reported that the pat downs were conducted professionally and respectfully. At no time did a resident complain that they were uncomfortable in a sexualized way during a pat down.

#### **Standard 115.216 Residents with disabilities and residents who are limited English proficient**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy that calls for the reasonable accommodations for clients that allow for them to be able to benefit from program services. These services are for clients who may have a physical, mental, or cognitive disability or for clients who may be limited English proficient. The facility works with community partners to address specific individual needs so that clients can benefit from all aspects of the facility’s efforts to prevent, detect, and respond to incidents of sexual abuse and sexual harassment.

The facility staff are instructed to ensure that all aspects of PREA are communicated to all clients regardless of mental, physical, or cognitive disability or language barrier. If there is not a qualified staff member to assist the client, a community partner will be contracted to aid the client in understanding agency rules, PREA, and other regulations. The agency currently has partnerships with Affordable Language Services, VocaLink, and Hearing, Speech, and Deaf Center of Greater Cincinnati.

At no time will another client be used for interpretive services unless a delay in services would compromise the client’s safety, the performance of first responder duties, or an investigation.

The facility does not currently house any client needing these services.

### Standard 115.217 Hiring and promotion decisions

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Talbert House has a policy that prohibits any of the facilities it operates to hire or promote staff (including contractors and volunteers) that have been convicted of sexual abuse in a prison, jail, lockup, or community confinement facility, nor will they hire or promote anyone who has been civilly or administratively adjudicated to have engaged in sexual abuse in the community. The facility conducts a NCIC/NLETS background check on all employees and volunteers. Staff members who work in a facility that houses federal Bureau of Prison offenders will automatically receive a background check every five years as part of the contract renewal. A random review of 12 employee files shows that all employee background checks are up to date. The agency documents all contact with previous employers.

The employee application requires all applicants to reveal if they have been convicted of sexual abuse in a prison, jail, lockup, or community confinement facility or convicted of engaging or attempting to engage in sexual activity in the community by force (over or implied) or coercion, or if the victim did not consent or was unable to consent; and if they have been civilly or administratively adjudicated to have engaged in the above activity.

The agency also has a PREA acknowledgement form that all staff sign. The form reviews the agency's zero tolerance policy and all expectations under the PREA guidelines including the continuing affirmative duty to report any allegation against the employee. New employees are also trained on ethical and professional conduct and scope of practice, prevention of personal or familial relationships with clients, and professional boundaries.

Employees who would like to move up within the agency will have to submit a letter of interest to the HR Department. The HR Department will assess the eligibility of the employee by reviewing performance appraisals, disciplinary records, and personnel action reports. Employees who have a disciplinary report that includes a substantiated allegation of sexual harassment will not be considered for the position.

The auditor reviewed 12 random employee files. The review included onboarding documentation, employment application, reference checks/verification, interview forms, disciplinary records, training records, background checks, employee handbook, code of conduct/ethics acknowledgement, and promotions.

The auditor interviewed the Human Resource Generalist concerning their method for ensuring all employees receive their initial and five-year background checks, the process for promotions, and the onboarding process.

### Standard 115.218 Upgrades to facilities and technologies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility has not acquired any new facility nor is it planning any substantial expansion or modification to the current facility. The facility constantly reviews the facility for needs to its video monitoring system. This includes taking into consideration how such technology may enhance its ability to protect residents from sexual abuse.

Facility management review the staffing plan annually in order to assess the effectiveness of the facility’s security program and if improvements in the electronic monitoring could help in the prevention, detection, and responding to sexual abuse and sexual harassment. The facility is planning to add additional cameras throughout the living areas. There is no other need for additional electronic monitoring or increased staffing levels. The PREA Coordinator will continue to monitor and request additional resources as needs arise.

**Standard 115.221 Evidence protocol and forensic medical examinations**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility conducts administrative investigations into allegations of sexual abuse and sexual harassment. If at any time during the investigation the incident appears to be criminal in nature, the PREA investigator will refer the case to the legal authority for a criminal investigation. The facility has an MOU with the City of Cincinnati Police Department as they have the legal authority to investigate criminal conduct at the facility. The department has agreed to use “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents” as the uniform evidence protocol in which to investigate any criminal allegations.

The facility will send clients to University of Cincinnati Hospital where they perform forensic exams as no cost to the victim. The auditor reviewed the hospital’s website to confirm the services of a SANE practitioner and advocate services. Talbert House has a MOU with Women Helping Women to provide advocate and emotional supportive services.

University Hospital has a SANE nurse on staff 24 hours a day 7 days a week. These nurses have been trained in forensic nursing and crisis intervention clinical competencies. Women Helping Women would provide an advocate to offer emotional support, crisis intervention, and follow up services.

The agency clinicians are trained to provide emotional supportive services and would offer follow up services for the victim if needed.

### **Standard 115.222 Policies to ensure referrals of allegations for investigations**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy that regulates an administrative investigation of all allegations of sexual abuse and sexual harassment. The policy ensures that any allegation that appears to be criminal in nature is referred to the legal authority in charge of conducting a criminal investigation. The facility has a MOU with the City of Cincinnati Police Department, the agency who has the legal authority to conduct such investigation. The agency has posted its policy concerning conducting an administrative and criminal investigation on its website (<http://www.talberthouse.org/resources/prea-5/>). During this audit cycle, the facility has had no reported allegations.

### **Standard 115.231 Employee training**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

All employees receive orientation training during their onboarding at Talbert House. This training includes PREA related topics. During this training staff learn from experienced trainers on practical and facility specific ways to manage PREA related situations. At training, staff also learn how to detect blind spot areas; conduct pat downs, strip searches, and transgender/intersex pat downs; and complete searches.

The classroom part of the training includes:

Gender specific training  
Code of ethics  
PREA assessment and the use of screening information  
Resident reporting  
Boundaries  
Investigations  
First responder duties/coordinated response plan  
Client rights under the PREA guidelines  
PREA policies  
Rights and responsibilities for incidents of sexual abuse, assault, harassment, and retaliation  
Symptoms of abuse  
LGBTI populations  
Victim medical/mental health care

In addition to orientation training on PREA topics, employees also receive, PREA related training annually. All training is tracked and a copy is kept in the employees file.

**CORRECTIVE ACTION:**

The facility offers the required specific training identified in 115.231; however, the training is only mandatory during orientation. Staff members may choose Relias online training to fulfill the training requirement for other years. A review of the Relias online training showed that it lacked training on how to communicate effectively and professionally with residents including, lesbian, gay, bisexual, transgender, intersex, or gender non-conforming. This training is allowable for the off year of the biannual training requirement, but not on an annual basis.

**FACILITY RESPONSE:**

The PREA Coordinators met with all facility Directors and Associate Directors and clarified the training requirement. Talbert House offers training classes throughout the year via the agency's Institute for Training and Development that any staff member can attend. The facility Directors and Associate Directors will ensure staff participate in the facilitated training that covers all required topics on a biannual basis.

### Standard 115.233 Resident education

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

All residents receive information at intake on the facility's zero tolerance policy. This information is reviewed with the client to ensure that each client knows how to report incidents or suspicions of sexual abuse or sexual harassment; their right to be free from sexual abuse, sexual harassment, and retaliation; and how to keep themselves safe while in the facility. If a resident is limited in English proficiency or another disability that prevents, normal communication, the facility will work with outside agencies to ensure each client can benefit from the agency's efforts to prevent, detect, report, and respond to allegations of sexual abuse and sexual harassment.

At intake clients will receive brochures and other documentation that provides phone numbers and addresses to reporting and supportive agencies. This information is also documented throughout the facilities on posters located in conspicuous places. A more formal client education concerning their rights and responsibilities under the PREA standards is given at a later time.

The facility provided the auditor with the documentation that is given to clients, and noted the posters located throughout the facility.

In total, five clients were interviewed by the auditor (10% of the current population). The clients acknowledged receiving PREA education training and informational brochures from the facility. All clients reported feeling safe in the facility and comfortable enough with staff to report an allegation if necessary. Clients were aware of the PREA postings and the toll free phone numbers available if they needed to contact a hotline or other supportive services. Clients in this facility are also able to have a personal cell phone.

- Exceeds Standard (substantially exceeds requirement of standard)

PREA Audit Report

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy concerning specialized training for PREA administrative investigators. All criminal investigations are referred to the local legal authority for investigation. Pathways has two staff members that have received appropriate training on how to conduct an administrative investigation. The training included techniques for interviewing sexual abuse victims, proper use of Miranda and Garity Warnings, evidence collection in a confinement setting, and required evidence to substantiate a case for administrative or criminal investigation referral. The PREA coordinator has been trained as an administrative investigator trainer and provides support and guidance to facility investigators.

**Standard 115.235 Specialized training: Medical and mental health care**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility offers limited onsite medical and mental health services however, these services do not include forensic medical examinations or sexual assault advocate services. All clients requiring these services would be referred to community resources. The facility would use the University of Cincinnati Hospital for SANE practitioners who are available 24 hours a day 7 days a week free of charge. Clients needing mental health services would be first assessed by the facility clinician and then referred out to services in the community. Advocate services for any client needing services after a sexual abuse or sexual assault incident would receive services from Women Helping Women

**Standard 115.241 Screening for risk of victimization and abusiveness**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

All clients are screened within 72 hours from intake to assess their risk of vulnerability or abusiveness. The screening tool used includes all required criteria per the standard to accurately assess the client’s risk. The screening is completed by case management staff and a rescreen is completed before the client reaches 30 days in the facility. Case managers have been trained on how to complete the assessment appropriately. Client’s assessments are referred to the clinician for further review and/or classification if a client answers in the affirmative to any of the questions. The clinical supervisor also reviews assessments for accuracy. Per policy, a client cannot be disciplined for refusing to answers assessment questions.

Interviews with clients confirmed that they received an assessment at intake and a rescreening at a later date.

Interviews with staff confirmed they understood how to use the screening tool and kept all information confidential. The agency provides case managers with specific PREA training related to their responsibilities as a case manager which includes how to accurately complete an initial assessment and rescreen.

**CORRECTIVE ACTION:**

The facility’s screening tool question as to perception is set up to get the clients perception as to whether others see him/her as being lesbian, gay, transgender, intersex, or gender non-conforming. The FAQ dated October 21, 2016 for this standard clarifies that the determination is based on the screener’s perception.

**FACILITY RESPONSE:**

The screening tool and the procedure have been revised to direct staff to note their perception of the resident’s LGBTI status. The Associate Directors have reviewed the new forms and process with case management staff. The auditor has reviewed the new form and meeting minutes.

**Review:**

This discussion must also include corrective action recommendations where the facility does not meet standard. These**

**recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

All clients who receive a classification as vulnerable based on their PREA screening assessment will be housed in a bed/room that provided the maximum supervision. Staff would be aware of their status and ensure the safety and security of the client without knowing details of the assessment.

Besides housing, the information obtained in the assessment may be included in the client's individual case plan. The client and the case manager would create goals to work on while in treatment or the case manager may make community referrals for treatment. The facility just earned a grant to providing trauma informed care. This will allow all staff to appropriately address clients concerns and trauma issues.

The facility has developed an appropriate plan to house transgender/intersex clients safely. The case manager would discuss with a transgender/intersex client all available safety options and allow their views of their own safety to aid in determining housing and treatment options. Clients would be able to receive the same treatment benefits while being house in a manner that allows for safe housing, work, and program assignments.

During the interview, the Associate Director was able to clearly discuss the facility's plan to keep potential victims away from potential abusers during work, education, or program assignments. At this time, the facility does not have a client that has identified as transgender or intersex.

The clients at Pathways for Women have multiple ways of reporting sexual abuse or sexual harassment. Posters throughout the facility indicate how clients can report to Talbert House staff as well as how to report to an outside agency. Interviews with the clients indicate that they are aware of all means of reporting and that they could report anonymously. They received the information at intake, during orientation training, and in case manager meetings.

The facility allows for free calls to the reporting entities. Residents are allowed to have cell phones in the facility, which they can use to make a report.

All residents received information at intake and in their handbooks regarding PREA reporting. Staff received information on how to privately report during staff training.

The facility has not received an allegation of sexual abuse or sexual harassment during this audit cycle.

### Standard 115.252 Exhaustion of administrative remedies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Talbert House has a grievance policy which does not assess a time limit for filing a grievance alleging sexual abuse or sexual harassment. The agency will respond to a grievance within five working days and has several levels of appeals. Should staff need more time to investigate or respond to the client, staff will notify the client of the extension and provide a date a decision will be made. Clients are informed that they are not required to use the grievance system in order to make an allegation of sexual abuse and sexual harassment, and that there are no time limits to reporting. Clients are also notified that third party sources can assist in the grievance process and that they can file a sexual abuse or sexual harassment grievance on behalf of another client. Grievances forms are available to clients and can be returned to any staff member.

During random client interviews, each responded that they were informed of the grievance process at intake. The grievance policy is also outlined in the client handbook which each client has verified they received at intake. No client interviewed has used the grievance system to report an allegation of sexual abuse or sexual harassment. The auditor discussed with the residents response times to any type of grievance and those who have filed various grievances received a response from the agency within the specified time limit.

The facility Associate Director reviewed the grievance process with the auditor and the various levels of appeals available to clients. Clients who allege substantial risk of imminent sexual abuse will be immediately protected. The victim can be moved to another room or facility or the abuser can be moved to another room or facility. Agency practice is to place any staff member who is the subject of a sexual abuse or sexual harassment allegation on administrative leave.

**determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy that requires all staff to immediately report any knowledge, suspicion, or information regarding an incident of sexual abuse, sexual harassment, or retaliation, including third party and anonymous reports. The staff have been give instruction on how to document the report in a way which limits access to that information, and to only share that information with staff in order to make treatment, investigation, or other security decisions. All allegations of sexual abuse or harassment are referred to the Associate Director and PREA Coordinator for investigation.

Staff interviewed, including line staff and facility leadership, understood their duty to report and were trained appropriately on the agency’s PREA reporting policies. Staff indicated that they would have no trouble reporting any allegation or suspicion of sexual abuse, sexual harassment, or retaliation even if it was against another staff member.

All staff members who have licensure are required to inform clients of their status and the limits of confidentiality. These staff members maintain their duty report any allegation made to them.

The facility does not accept any client that is under the age of 18 and does not have a duty to report to child protective services. The facility would make a report to adult protective services if the alleged victim was classified as a vulnerable adult.

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility has a plan to protect clients from imminent sexual abuse. The facility has several dorm units that a client can be moved to in order to facilitate protection. If necessary, Talbert House has several facilities throughout Cincinnati. The facility could utilize one of the other facilities if necessary to protect a client from imminent sexual abuse. The agency has a practice of placing a staff member on administrative leave if they are the subject of a sexual abuse or sexual harassment investigation.

An interview with the Associate Director and both PREA Coordinators discussed the process for ensuring client safety and making a move to another facility if necessary. The facility has not had to remove a client due to risk of imminent sexual abuse or place a staff member on administrative leave during an investigation this audit cycle.

The auditor was left with the impression from the interviews with clients and staff that client safety was paramount to the staff and that any necessary changes that would not jeopardize the safety and security of the facility would be made.

### Standard 115.264 Staff first responder duties

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy requiring all staff be trained on first responder duties. The duties vary from non-security staff to security staff. All staff are supplied the required first responder training. The facility has a detailed sexual abuse, assault, harassment response procedure for any incident of sexual abuse. This plan is located in the compliance manual stored at the main post. The response procedure includes where to place an alleged abuser when separating from the victim so that the abuse cannot destroy any evidence, preserving evidence until the local legal authority can collect the evidence, requesting that the alleged victim not do anything to destroy evidence including washing, brushing teeth changing clothes, performing bodily functions, smoking, drinking, or eating, reporting allegation to the local authorities and to the facility Associate Director or the manager on call and the PREA Coordinator.

Non-security staff are required per policy to contact a security staff member and make a request that the alleged victim not take any action that could destroy evidence.

During staff interviews, both security and non-security staff have acknowledged their training of the first responder duties. The staff was able to specifically identify the steps they are to take as a security or non-security staff and knew the location of the sexual abuse, assault harassment response procedure.

The facility has not had an incident of sexual abuse during this audit cycle.

### **Standard 115.265 Coordinated response**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has developed a Sexual Abuse, Sexual Assault, Sexual Harassment Reporting Form to walk staff members through the coordinated response plan. The plan lists the required steps and is posted in the Compliance Manual located at the main post. The steps listed are specific and detailed enough for staff to follow in the event of a sexual abuse/sexual assault incident. The list starts with the first responder duties and refers the staff member to call the local authorities and the Associate Director or Manager on Call as well as the PREA Coordinator.

The Associate Director will follow up with the local authorities until completion of the investigation. An administrative investigation will not take place until after the criminal investigation is completed or in conjunction with the local legal authority.

The staff will offer the victim access to a forensic medical exam at University Hospital, victim advocate services from Women Helping Women, and if the advocate services are not readily available a qualified staff member who has been trained as an emotional support person will assist. The advocate will accompany the victim to the medical exam and any investigative interviews. In cases of sexual assault or sexual abuse, the victim's mental health will be evaluated by the agency clinical supervisor. The clinical supervisor will update the PREA Coordinator on the victim's need for additional services.

The case manager or designee will be responsible for the 90 day retaliation monitoring and status checks.

N/A: The PREA Coordinator reports that the facility does not have a union nor does it enter into any contracts with employees.

**Standard 115.267 Agency protection against retaliation**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy designed to protect clients and staff who report sexual abuse or sexual harassment or cooperate with an investigation from retaliation from other clients or staff. The protection measures include bed moves, dorm moves, facility moves, and administrative leaves for staff. Should a client or staff member make a request, an emotional support person will be available for services.

The Associate Director or designee would be responsible for monitoring the conduct, and treatment of clients or staff who report sexual abuse. The monitoring of clients who report abuse would also include periodic status checks and client disciplinary records, housing, program changes, or negative performance reviews or reassignments of staff. The monitoring would continue past 90 days if need is indicated. Monitoring would cease if the allegation has been determined to be unfounded.

There have been no allegations of sexual abuse during this audit cycle or a need for retaliation monitoring.

The auditor was able to interview the Associate Director as well as the Clinical Supervisor to confirm the retaliation monitoring process and the measures the facility would employ to ensure that a client or staff member would be protected from retaliation.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility conducts administrative investigations but does not conduct criminal investigations. Criminal investigations would be completed by City of Cincinnati Police Department. The facility has not had an allegation of sexual abuse or sexual harassment during this audit cycle.

The facility has a trained administrative investigator and the PREA Coordinator is a trained investigator as well.

The auditor sat with the PREA Coordinator and the PREA Investigator to review the process for how the investigator completes an investigation. The investigator discussed the review of any camera footage if available, interviewing the alleged victim, witness, and abuser, and review if there has been previous complaints made against the suspected abuser. At no time does the investigator use status as a client or staff member to determine credibility. The facility does not use a polygraph examination as part of an administrative investigation. All allegations will receive an administrative investigation regardless of whether the alleged victim or abuser is no longer employed or in the control of the agency.

All allegations are documented and reviewed by the Risk Management Committee. The report is comprehensive in the information it collects from the beginning to the disposition of the allegation. If a Sexual Abuse Review Team meeting and retaliation monitoring is necessary, the investigator will denote the time of the SART meeting and who is responsible for retaliation monitoring.

The PREA Coordinator confirmed the retention schedule of for as long as the person is incarcerated or employed with the agency plus five years. The Associate Director is responsible for maintaining contact with the legal local authority when the investigation has been referred for criminal investigation.

### Standard 115.276 Disciplinary sanctions for staff

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Talbert House outlines its progressive disciplinary plan in its employee handbook. A review of the handbook states that any staff member found to have engaged in sexual abuse will be terminated. Termination or resignations by staff will not void an investigation and any criminal activity will be reported to the legal authority and to any relevant licensing agency. Policy also indicates that the agency will notify law enforcement or any relevant licensing boards of any terminations or resignations based upon violations of the agency's client sexual abuse and sexual harassment prevention policy when such behavior is criminal in nature.

All staff interviewed understood that anyone engaging in sexual harassment will be disciplined according to agency policy and that they would be terminated for participating in sexual abuse. Staff indicated that they are required to report any suspicion to their immediate supervisor and that they would not have any issue reporting a coworker for violation of the zero tolerance policy.

The auditor reviewed agency policy, the employee handbook, and interviewed the PREA Coordinator and Human Resource Generalist to confirm the disciplinary process for employees found to have substantially engaged in sexual harassment or sexual abuse against residents. All agency leadership stated that any employee found to have engaged in sexual harassment will be immediately terminated from the facility and employees found to have engaged in sexual abuse will be immediately terminated and law enforcement would be notified.

### **Standard 115.282 Access to emergency medical and mental health services**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

After an incident of sexual abuse or sexual assault, victims are offered unimpeded access to emergency medical treatment and crisis intervention services. Qualified practitioners who would determine the appropriate scope of services would provide these services. Medical services would be provided by University Hospital, and mental health, crisis intervention, or advocacy services would be provided by Women Helping Women. Clients would be given timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis. All services are offered free of charge to clients.

The victim's mental health will be evaluated by the agency clinical staff. The clinician will update the PREA Coordinator on the victim's need for outside services.

Talbert House staff are trained on the appropriate response to an incident of sexual abuse or sexual assault during monthly staff meetings. A grant obtained by the facility will provide trauma informed care training to all staff members.

A review of allegation investigation forms shows that staff would offer clients the opportunity to receive medical and mental health care if appropriate.

### **Standard 115.283 Ongoing medical and mental health care for sexual abuse victims and abusers**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility offers community medical and counseling services for clients who have been sexually abused in a prison, jail, lockup, or juvenile facility. The treatment includes testing for sexually transmitted diseases. Treatment is offered to all known client to client abusers within 60 days of learning such history. All treatment is offered free of charge. The facility has not had a report of any known client to client abuser.

Staff are trained on the first responder duties and coordinated response plan. This plan outlines how staff is to offer unimpeded access to both emergency and ongoing medical and mental health care. Ongoing medical and mental health care will be at the discretion of the medical provider and is again at no cost to the resident.

The PREA initial screening and rescreening along with other intake documentation are reviewed to determine if a client has abused others while in a correctional setting. If a client indicates or has a report that indicates that he has in fact abused another client while in a correctional setting, the agency’s clinician would meet with the client to determine if additional treatment or a referral for community treatment is necessary.

### **Standard 115.286 Sexual abuse incident reviews**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Talbert House has an agency policy on a review of all substantiated or unsubstantiated allegations of sexual abuse within 30 days of the conclusion of the investigation. The review team includes the PREA Coordinator, Facility Associate Director, Facility Director, Clinical staff, and any other staff member deemed necessary.

The team would review agency policies and practices, training, staffing plan, and physical vulnerabilities. This includes whether a change in policy or practice will better prevent, detect, or respond to sexual abuse; if the incident or allegation was motivated by race, ethnicity, gender identity, gang affiliation, or any other group dynamic; if any physical barriers in the area enabled the abuse; adequacy of staffing levels; and whether monitoring technology should be deployed or augmented to supplement supervision by staff. The agency’s Risk Management Committee will review for any significant issues that may need to be addressed agency wide.

Pathways for Women has no allegations of sexual abuse or sexual assault during this audit cycle that would require a SART review. The auditor review the paper work and process of a SART review with the PREA Coordinator. The Director would ensure that the Associate Director implemented any recommendations.

### Standard 115.287 Data collection

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The facility directors are responsible for collecting the data for every allegation of sexual abuse and sexual harassment at the facility for each calendar year. The facility is using Ohio Department of Rehabilitation and Corrections PREA reporting form as the collection instrument. The information from this report is aggregated and listed in the agency’s annual PREA report and the report is posted on the facility’s website.

The PREA Coordinator reports the records retention schedule for information collected is ten years.

The Justice Department has not requested this information from the agency.

### Standard 115.288 Data review for corrective action

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The agency has a policy requiring the PREA Coordinator to publish an annual PREA report. The report contains details on how the facility assess and improves the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training. The report identifies problem areas and corrective action along with the corrections from prior years. The report also includes an assessment of the agency’s progress in addressing sexual abuse.

A review of the report shows the facility documented the required information as well as a comparison to last year's allegation demographics and corrective actions. The report list the ways the agency has addressed issues and its overall progress toward addressing sexual abuse.

The report is posted on the agency's website (<http://www.talberthouse.org/resources/prea-5/>) and includes reports from previous years. The report does not include any identifying information that could jeopardize the safety and security of the facility.

### **Standard 115.289 Data storage, publication, and destruction**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

The PREA Coordinator is responsible for the collection and secure retention of all data collected pursuant to standard 115.287. The data collected will be retained to 10 years. The Coordinator takes all collected information from each facility under the Talbert House Inc. umbrella and creates an annual report which is published on the agency's website (<http://www.talberthouse.org/resources/prea-5/>) after approval from the agency's President/CEO.

The report does not contain any information that could identify anyone personally or contain any information that could jeopardize the safety and security of the facilities.

### **AUDITOR CERTIFICATION**

I certify that:

- The contents of this report are accurate to the best of my knowledge.
- No conflict of interest exists with respect to my ability to conduct an audit of the agency under review, and
- I have not included in the final report any personally identifiable information (PII) about any inmate or staff member, except where the names of administrative personnel are specifically requested in the report template.
