RE: 2018 Annual Jail Inspection

Dear Sheriff Wayne Risner:

In accordance with Section 5120.10 of the Ohio Revised Code and Executive Order 92-03 of the Department of Rehabilitation and Correction, the Ashland County Jail, a full service jail, was inspected on 10/24/2018. The inspection was restricted to assessing compliance with a group of standards, selected from the Standards for Jails in Ohio promulgated by the Department of Rehabilitation and Correction. The group of standards being inspected focused on Reception & Release, Classification, Security, Housing, Sanitation and Environmental Conditions, Communication, Visitation, Medical and Mental Health Services, Food Service, Recreation and Programming, Inmate Discipline, Administrative Segregation, Grievance, Staffing, and Staff Training. The inspection consisted of this Inspector receiving and/or reviewing requested documentation and/or materials, touring selected areas of the jail, and having discussions with various jail staff.

The total actual general housing capacity for the Ashland County Jail is 127. On the date of the jail inspection, there were 120 inmates incarcerated in the Ashland County Jail. The Ohio Department of Rehabilitation and Correction recommended housing capacity for the jail is 127, which is based upon total available living space and other requirements. Officials should maintain prisoner counts within the Department's recommended capacity figure .

The Ashland County Jail (Full Service Jail) is in compliance with 113 standards, 53 "Essential", and 60 "Important".

The Ashland County Jail did not comply with 1 standards, 0 "Essential", and 1 "Important". This letter is intended to serve as a basis for developing plans of action for bringing the facility into compliance with the deficiencies noted during the inspection.

5120:1-8-03 (B) Each full service jail shall have written policies and procedures, and practices which evidence, that the

following minimum standards are maintained. (1) (Important) Procedures govern availability, control inventory, storage, and use of firearms, less than lethal devices, and related security devices, and specify the level of authority required for their access and use. Chemical agents and electrical disablers are used only with the authorization of the jail administrator or designee. Access to storage areas is restricted to authorized persons and the storage space is located in an area separate and apart from inmate housing or activity areas.

Comments: At the time of inspection, the jails current policy and procedures need updated to reflect this standard and components specified.

The Ashland County Jail is in compliance with 100% of the Essential Standards and at least 90% of the Important Standards meeting the requirements of a "Compliant Jail". It should be noted however; the jail did not comply with 1 of the Important Standards upon which the facility was inspected. This letter is intended to serve as a basis for developing plans of action for bringing the facility back into compliance with the remaining deficiencies noted during the inspection.

The Bureau of Adult Detention encourages the jail to correct the remaining deficiencies noted in the inspection report prior to the next annual jail inspection. Plan of Action forms are enclosed and can be submitted through the Ohio Jail Management System (OHJMS) at www.OHJMS.Intelligrants.com. Feel free to contact the Bureau if you need assistance or clarification in this effort. The Bureau remains available to discuss the aspects of this report and to provide reference materials or assistance as desired.
