RE: 2016 Annual Jail Inspection

Dear Sheriff Travis Hutchinson:

In accordance with Section 5120.10 of the Ohio Revised Code and Executive Order 92-03 of the Department of Rehabilitation and Correction, the Wayne County Jail, a full service jail, was inspected on 08/22/2016. The inspection was restricted to assessing compliance with a group of standards, selected from the Standards for Jails in Ohio promulgated by the Department of Rehabilitation and Correction. The group of standards being inspected focused on Reception & Release, Classification, Security, Housing, Sanitation and Environmental Conditions, Communication, Visitation, Medical and Mental Health Services, Food Service, Recreation and Programming, Inmate Discipline, Administrative Segregation, Grievance, Staffing, and Staff Training. The inspection consisted of this Inspector receiving and/or reviewing requested documentation and/or materials, touring selected areas of the jail, and having discussions with various jail staff.

The total actual general housing capacity for the Wayne County Jail is 129. On the date of the jail inspection, there were 117 inmates incarcerated in the Wayne County Jail. The Ohio Department of Rehabilitation and Correction recommended housing capacity for the jail is 80, which is based upon total available living space and other requirements. Officials should maintain prisoner counts within the Department's recommended capacity figure.

The Wayne County Jail (Full Service Jail) is in compliance with 111 standards, 53 "Essential", and 58 "Important".

The Wayne County Jail did not comply with 3 standards, 0 "Essential", and 3 "Important". This letter is intended to serve as a basis for developing plans of action for bringing the facility into compliance with the deficiencies noted during the inspection.

5120:1-8-03 (B) Each full service jail shall have written policies and procedures, and practices which evidence, that the

following minimum standards are maintained. (1) (Important) Procedures govern availability, control inventory, storage, and use of firearms, less than lethal devices, and related security devices, and specify the level of authority required for their access and use. Chemical agents and electrical disablers are used only with the authorization of the jail administrator or designee. Access to storage areas is restricted to authorized persons and the storage space is located in an area separate and apart from inmate housing or activity areas.

Comments: At the time of the inspection, procedures and documentation/logs to show adherence where not available.

5120:1-8-04 (A) (2) Housing Cells: (b) (Important) One hundred square feet with seven feet least dimension for double occupancy, stacked bunks, one hundred ten square feet with nine feet least dimension for double occupancy, single bunks.

Comments: At the time of inspection, it was observed that additional bunks were added to four housing units that exceed the Division recommended capacity figures. The cells that are double bunked are required a minimum of 100 sq. feet for stacked bunks and 110 square feet for single bunks.

5120:1-8-05 (G): The jail shall maintain documentation that the following standards are met with regard to interior lighting: G3): (Important) Lighting in inmate sleeping areas shall be reducible to between two and four foot-candles, measured thirty inches above the floor.

Comments: At the time of inspection, the jail provided documentation/ logs that were below the standard requirement of 2 foot candles in many of the sleeping areas. Additionally, several readings in sleeping areas that exceeded the requirements of 4 foot candles.

The Wayne County Jail is in compliance with 100% of the Essential Standards and at least 90% of the Important Standards meeting the requirements of a "Compliant Jail". It should be noted however; the jail did not comply with 3 of the Important Standards upon which the facility was inspected. This letter is intended to serve as a basis for developing plans of action for bringing the facility back into compliance with the remaining deficiencies noted during the inspection.

The Bureau of Adult Detention encourages the jail to correct the remaining deficiencies noted in the inspection report prior to the next annual jail inspection. Plan of Action forms are enclosed and can be submitted through the Ohio Jail Management System (OHJMS) at www.OHJMS.Intelligrants.com. Feel free to contact the Bureau if you need assistance or clarification in this effort. The Bureau remains available to discuss the aspects of this report and to provide reference materials or assistance as desired.
